November 9, 2012

To the FCC:

I wish to register my opinion objecting the political text spamming seen in this election cycle. Rampant and well-funded, widespread "disinformation," ranging from erroneous dates and times for elections to screed regarding candidates – including efforts to defame and misrepresent the President, candidates for the House and Senate – have no place in honest elections. Having the recipient pay for such transmissions is beyond the pale!

Please act to stop this blatant and unfair burden imposed on innocent bystanders who are simply caught in the electronic crossfire.

Sincerely,

Mariann Jelinek  
Williamsburg VA
